

I oppose media concentration!

I am writing to you today to comment on Docket No. 02-277, the Biennial Review of the FCC's broadcast media ownership rules. In promoting its supposed goals of fair competition, diversity and local voice in today's media market, I strongly believe that the FCC should retain all of the current media ownership rules now in question. These rules serve the public interest by limiting the market power of the huge, dominant companies and players in the broadcast industry.

I do not believe that the studies commissioned by the FCC accurately demonstrate, or even attempt to demonstrate, the negative effects that media deregulation and consolidation have had on the diversity of our media. While there may indeed be more sources of media than ever before, the spectrum of views presented has been severely limited.

Please do not push this through tomorrow. I am very worried about the lack of diverse opinions heard in the media even today. Why in the world would you want this to get even worse. The airwaves should belong to the people - not to the gigantic media corporations. I would imagine that even the true conservatives oppose this move. Please don't sell the people down the river. This is important to us all.

I encourage the Commissioners to come out and meet some of the people who do not have a financial interest in this issue, but a social interest.

With the serious impact these rule changes will have on our democracy, it is important that the Commission take the time to review these issues more thoroughly and allow the American people to have a meaningful say in the process.

Thank you,

Steve Golden
